

# TECHNICAL BULLETIN

## ULTIMATE WAX

Meguiar's® *ThinFilm* technology makes application and wipe-off effortless, even in full sun! New synthetic polymers crosslink to form a protective barrier that amplifies reflections for incredible depth and mirror-like shine without white residue on plastic/rubber. Meguiar's® proprietary Hydrophobic Polymer Technology reduces surface tension so water beads and rolls right off!

**Part #:** G18216 - 473ml – 16 oz liquid  
G18211- 311grams – 11 oz paste

**Packaging:** Liquid – 6 per case  
Paste – 6 per case

**Features:**

- Our most advanced, pure synthetic wax ever
- Extended protection with amplified reflectivity

**pH:** 8.8-9.5

**Paintable:** No

**Dilution:** RTU (Ready to use)

**Application Method:** Hand, Orbital, or Dual Action Polisher

**Directions:** For glossy paint finishes only (NOT for use on flat, matte or satin finishes). For best results, apply in the shade to a cool, clean surface. If shade is not available, Ultimate Wax may be applied to a warm surface and in the sun.

**By Hand:** Using the included applicator, spread a thin, even coat over the entire vehicle. A second pass is recommended to ensure complete coverage. Let product dry to a haze, then remove with a Meguiar's® Supreme Shine® Microfiber Towel. Turn to a clean portion of the towel for the final wipe

**By DA Polisher/Orbital:** Apply a small amount of product across the surface of a clean, foam finishing pad. Place the machine on the paint surface & use a slow speed to make 2 overlapping passes. Re-apply product as needed to cover the entire vehicle.

Let product dry to a haze, then remove with a Meguiar's® Supreme Shine® Microfiber Towel. Turn to a clean portion of the towel for the final wipe.

**Health rating:**

Health:	1
Fire:	1
Reactivity:	0
Specific Hazard:	N/A
