

TECHNICAL BULLETIN

ULTIMATE POLISH

The final step before waxing for maximum gloss and reflectivity.

Part #:	G19216 - 473ml / 16 oz liquid
Packaging:	Liquid – 6 per case
Features:	<ul style="list-style-type: none">• Adds depth of color prior to waxing, especially on dark colored cars• Removes fine swirls and towel marks for mirror-like reflections• Safe on all glossy paints, including clear coats
pH:	8
Paintable:	No
Dilution:	RTU (Ready to use)
Application Method:	Hand, orbital, or DA
Directions:	<p>For glossy paint finishes only – Do not use on flat, matte or satin finishes. For best results, apply in the shade to a cool, clean surface. Work in small, 2ft x 2ft sections at a time, removing product as you go. DO NOT ALLOW PRODUCT TO DRY. To remove oxidation, stubborn stains, water spots and larger blemishes, use Meguiar's® Ultimate Compound first.</p> <p>By Hand: Dispense a small amount of product on to a soft foam applicator pad. Apply to one section at a time using moderate pressure in a circular pattern, making 4-6 over lapping passes per section. Wipe immediately dry with a Meguiar's® Supreme Shine® microfiber or 100% cotton terry towel. Do not allow dry. Turn to a clean portion of the towel for the final wipe.</p> <p>By DA polisher/orbital: Dispense a small amount of product across the surface of a clean foam polishing or finishing pad. Place the machine on the paint surface, turn it on to a medium speed (on our G110v2 speed 3) and work that section using 4-6 overlapping passes. Wipe immediately dry with a Meguiar's® Supreme Shine® microfiber or 100% cotton terry towel. Re-apply as needed for additional gloss or to remove swirl marks.</p> <p>Wipe dry with a Meguiar's® Supreme Shine® microfiber or 100% cotton terry towel. Turn to a clean portion of the towel for the final wipe.</p>
