

TECHNICAL BULLETIN

PAINT PROTECT

Meguiar's® Paint Protect delivers tenacious protection with easy application. No rubbing. No buffing. Even after a year's worth of weekly washes*, it still beads water so you know it's protecting!

- Part #:** G36516 – 473 ml / 16 ounce
- Packaging:** 6 per case
- Features:**
 - 365 days worth of durability (based on 52 consecutive hand washes using a pH balanced car shampoo)
 - Easier to use than wax
 - Beads water like crazy
 - Use on all exterior paint, plastic, metal & chrome
 - Non-whitening, pure synthetic formula
- pH:** N/A
- Paintable:** No
- Dilution:** RTU (Ready to use)
- Application Method:** Wipe on / wipe off
- Directions:** Not recommended for glass/windows. For best results, hand wash using a Meguiar's car wash, dry, then apply Paint Protect in the shade to a cool, dry surface. Apply a small amount of Paint Protect to a foam applicator or DA Power System Waxing Pad, then spread a thin, even coat over the entire car. Re-apply the product to the pad as needed. Let Paint Protect cure for 3-5 minutes, then remove with a high quality microfiber towel (Meguiar's Supreme Shine®), turning to a clean, dry portion of the towel for the final wipe. **NOTE: PRODUCT DOES NOT DRY TO A HAZE.** Unlike a wax, Meguiar's Paint Protect's unique polymer formula does not haze but sets in 3-5 minutes, fully curing in 24 hours to provide incredible water beading protection, wash, after wash, after wash! *Based on 52 consecutive hand washes using a pH-balanced car shampoo
