

# TECHNICAL BULLETIN

## ONE STEP COMPOUND

This advanced aggressive, yet safe compound will clean and restore gloss to the gel coat surface in one step. Removes moderate to heavy oxidation, scratches, stains and tough water spots. Restores color and leaves a rich gloss on the treated surface. Incredible results by hand or machine.

- Part #:** M-6732
- Packaging:** 32 oz - 6 per case
- Features:**
- Effectively removes severe surface degradation and restores shine and luster to all gel coat and fiberglass surfaces.
  - Excellent results by hand or machine
- pH:** 8.12-8.62
- Paintable:** Yes
- Dilution:** RTU (Ready to use)
- Application Method:** Hand, Orbital, DA
- Directions:**
- FOR MACHINE USE:** SHAKE WELL. Always apply on a cool surface. Working one section at a time, dispense product on a clean surface. Wipe off splatter immediately. (When working with a new buffing pad, apply a small amount of product, in the shape an X on the pad itself.) Do not apply to vinyl or rubber surfaces. Using moderate pressure on the buffer, spread the product evenly over the surface with overlapping movements, to ensure uniform coverage. Work product until nearly dry. Immediately wipe dry with a separate clean, 100% cotton, terry cloth towel. (For best results, use a high-speed rotary buffer with a Meguiar's Mirror Glaze Cutting pad.)
- FOR USE BY HAND:** SHAKE WELL. Always apply on a cool surface. Working one section at a time, dispense a small amount of product on a clean 100% cotton, terry cloth towel or applicator pad and rub thoroughly into surface. Immediately wipe dry with a separate clean 100% cotton, terry cloth towel.
- Health rating:**
